

THE OPERATING LAYER FOR iGAMING SEO

SEO INFRASTRUCTURE BUILT FOR iGAMING SCALE

ForgePoint unifies ranking intelligence, SEO content production, domain operations, monitoring, and site launch automation in one configurable platform.

For iGaming operators, online casinos, affiliate teams, and SEO agencies.

Worldwide

GEO COVERAGE

100K+

KEYWORDS TRACKED

99.9%

TRACKING ACCURACY

24/7

MONITORING AND ALERTS

THE EXECUTIVE CASE

Scale SEO across markets without scaling complexity.

Disconnected tools turn multi-GEO growth into slower launches, blind spots, and manual reporting. ForgePoint creates one control layer from market signal to operational response.

CORE CAPABILITIES

ONE PLATFORM. THREE OPERATING LAYERS.

01

Market Intelligence

Track live rankings, competitor movement, and share-of-voice across GEOs and major search engines. Turn performance data into executive-ready reporting.

TRACKING

REPORTING

02

Content Operations

Move from keyword, country, and language to publish-ready SEO content with SERP, intent, gap, entity, localization, and quality analysis built into the workflow.

AI CONTENT

LOCALIZATION

03

Infrastructure and Launch

Manage domains, redirects, SSL, CDN, monitoring, and protection. Launch brand and satellite sites with technical SEO, templates, content, and UI/UX in one flow.

DOMAINS

AUTOMATION

BUILT AROUND YOUR OPERATING MODEL

Modular. Configurable. API-first.

Start with monitoring, add launch automation as your GEO strategy expands, or deploy a tailored private instance. Integrate alerts, tickets, dashboards, and workflows with your existing stack.

BEST FIT

Multi-GEO operators
Online casino portfolios
SEO and affiliate agencies
